ELECTRIC SURFBOARDS

Stay Awake

Awake is at the forefront of water sports with our cutting-edge line of electric surfboards. Our RÄVIK Jetboards and VINGA eFoilS are designed and developed in Sweden.

Awake Experience

Unmatched Performance: At Awake, we push boundaries by selecting the finest materials, designing specialized hulls for different riding styles, meticulously engineering every part of our boards. Our finely-tuned electronics ensure that whether you crave adrenaline-pumping speed or a relaxed cruise, our boards deliver exceptional performance.

Effortless Usability: Awake features a modular product line. The Awake Flex Battery, Click-to-Ride system makes your experience seamless and straightforward. We've designed everything to let you focus on what you love most – being on the water.

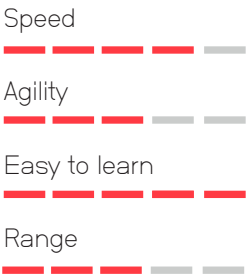

Ultimate Safety: Your safety is our top priority. Awake adheres to the strictest safety standards, incorporating four layers of protection in our batteries. Our eFoils come with a fully covered impeller, ensuring a secure ride every time.

Ride on the water

RÄVIK 3

The RÄVIK 3 is the all-around electric surfboard.

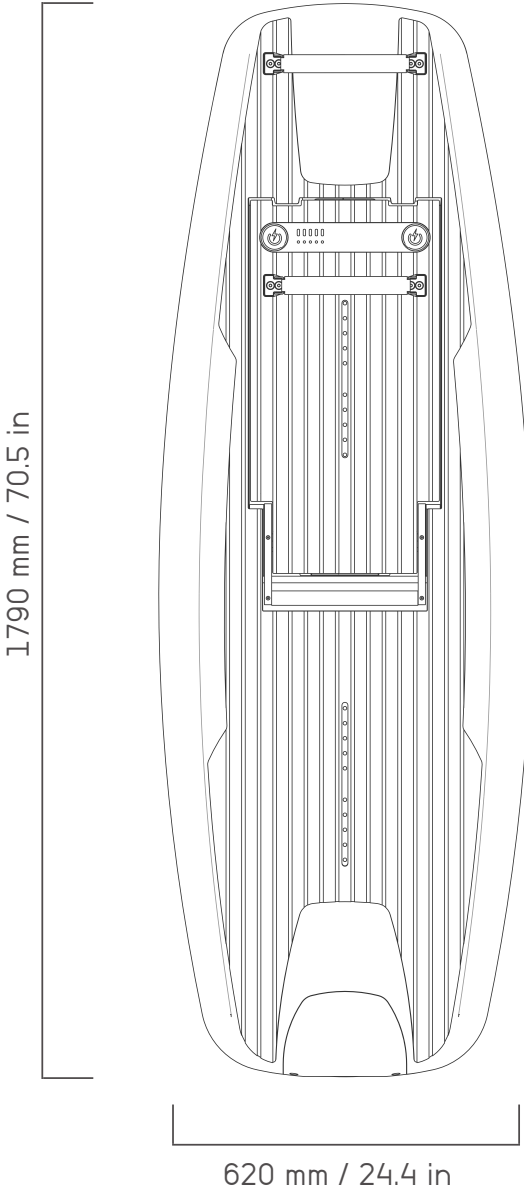

Easy to learn yet highly exciting, the RÄVIK 3 delivers the most epic rides.

The most versatile electric surfboard, the RÄVIK 3 is engineered for everyone. It provides a stable and controlled first ride and it scales with you as you master the art of cruising, carving, and executing tricks. This board is your partner in adventure, allowing you to explore jetboarding with confidence.

The ultimate balance between high performance, ease of use and comfort, the RÄVIK 3 is made from cutting-edge marine technology. With its robust construction and adapted shape, the RÄVIK 3 makes every session with friends, family, or solo adventures unforgettable. This is more than a jetboard; it's your ticket to surf the world.

RÄVIK 3 — Specifications

Awake eFoils

Glide above the water

VINGA 3

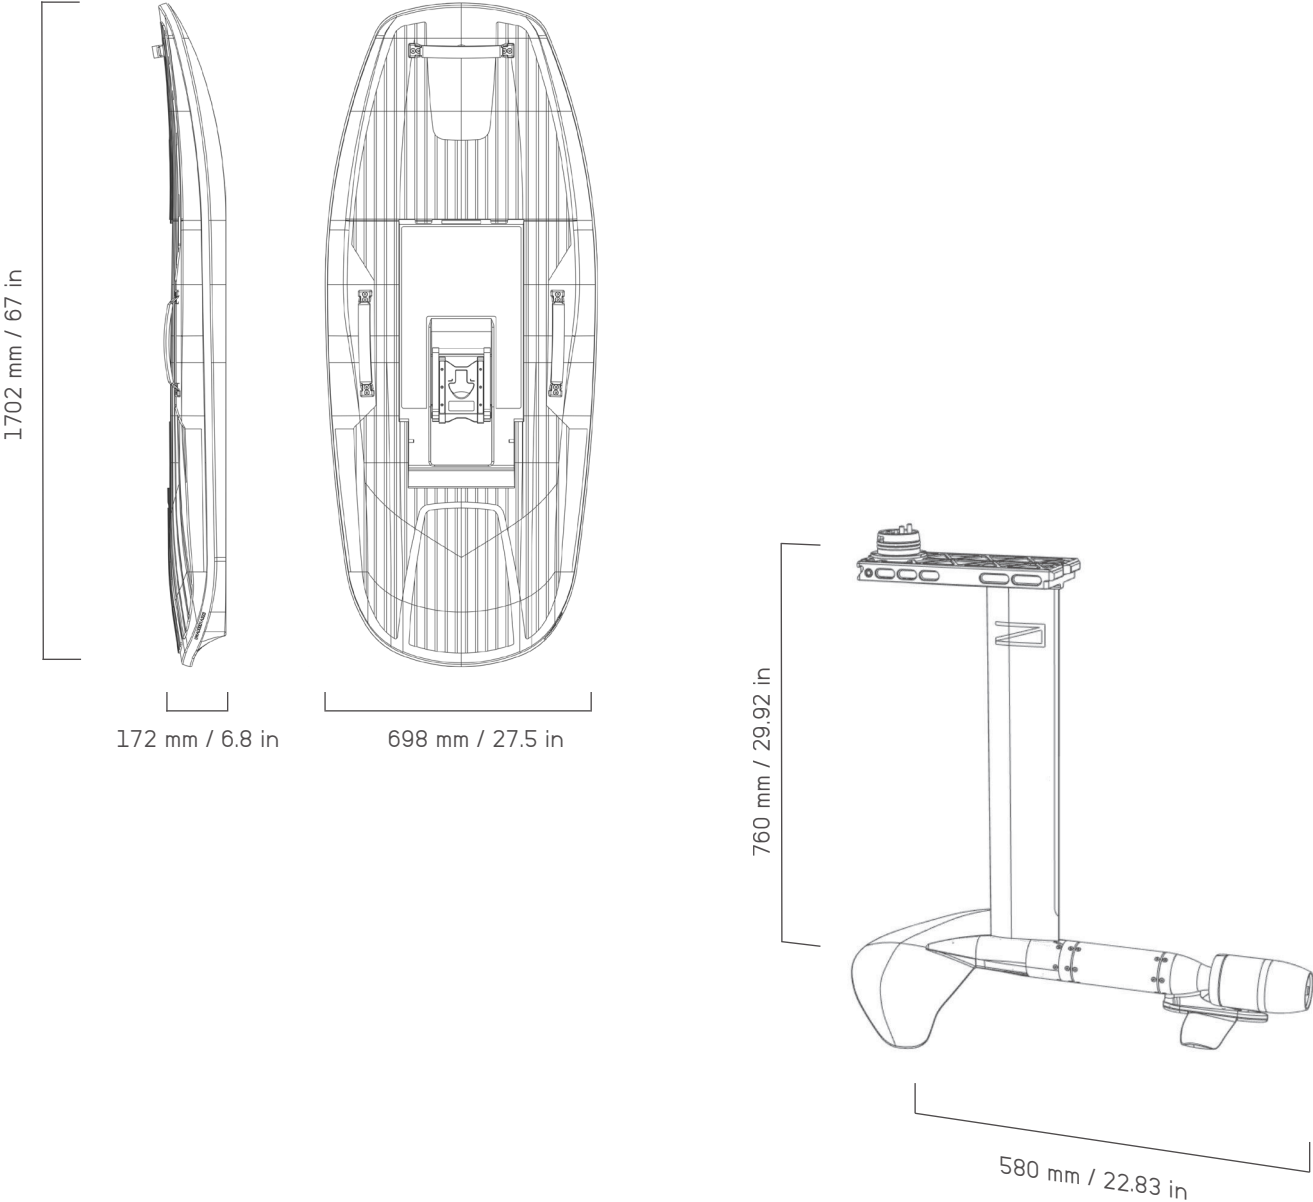

The Awake VINGA 3 is the easiest to use high-performance eFoil.

Designed for both beginners and riders looking to advance their skills, this electric hydrofoil is the ultimate companion for your water sports adventures. With a setup time of just 30 seconds and the ability to get you flying within 5 minutes. The VINGA 3 allows you to quickly become skilled at eFoiling.

The 95 liter volume provides support and ensures that riders can achieve planing at both early stages and low speeds. Additionally, the board features a double concave bottom designed to facilitate soft and comfortable takeoffs and landings. With its high power output, the VINGA 3 is adept at accommodating eFoilers of various weights, ensuring that getting up and eFoiling is effortless for everyone.

VINGA 3 — Specifications

Top speed:	50 kph / 31 mph
Set up:	Click-to-Ride System
Propulsion:	Fully shielded jet
Riding time (SR):	Up to 1 h 20 min
Riding time (XR):	Up to 2 h
Dimension (Board):	170 x 70 x 17 cm / 5'6" x 27,5" x 6,7"
Volume:	95 Liters
Mast height	70 cm / 27,5"
Wing set:	Full carbon fiber
Construction::	Carbon Fiber & Innegra composite

VINGA S

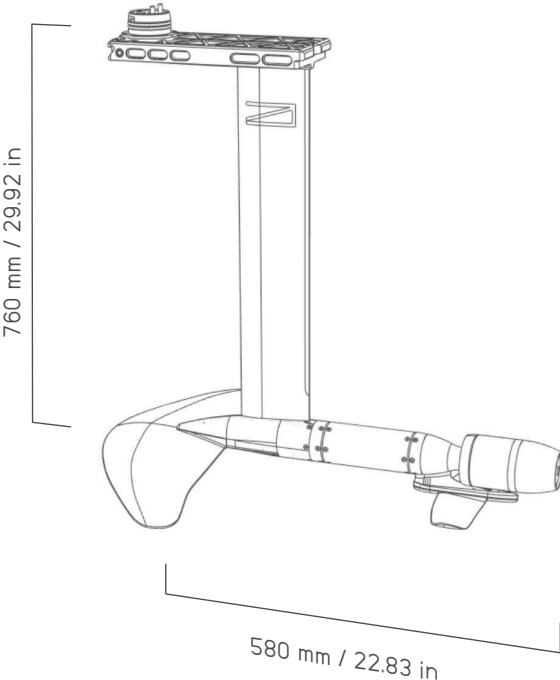

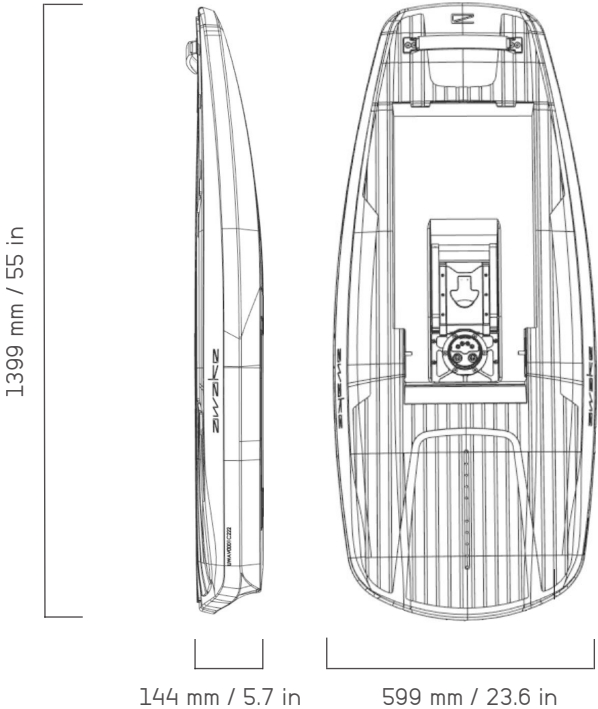

The Awake VINGA S is the most powerful eFoil.

Compact, reactive and powerful, the VINGA S allows experienced eFoilers to break the boundaries of eFoiling. Pursuing the pinnacle of streamlined performance and increased maneuverability has been the guiding principle behind this board's development.

With its 4' 6" compact and sleek hull, the VINGA S eFoil guarantees unmatched freedom of movement on the water. Thanks to innovations like the enclosed jet propulsion system, riders will experience not only more control but also more secure, sharp turns. This design allows riders to break the boundaries of the sport with confidence.

VINGA S — Specifications

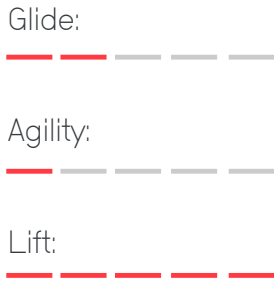

Top speed:	50 kph / 31 mph
Set up:	Click-to-Ride System
Propulsion:	Fully shielded jet
Riding time (SR):	Up to 1 h 20 min
Riding time (XR):	Up to 2 h
Dimension (Board):	140 x 60 x 15 cm / 4'6" x 23,6" x 6"
Volume:	60 Liters
Mast height	70 cm / 27,5"
